2020**

Ensuring Quality

Transparency efforts

Engagement with scientific and professional organizations

Recommendations and Questions

Take a deep look at geographies with low self-response rates

lower than 2010

for example, rural majority minority counties/tracts

ensure no differences in quality with geographies with high self-response rates

avoid undercounts

Future work

Understand reasons behind lower self-response rates in certain locations

Many possible factors at play

Recommendations and Questions

Discussion by CSAC
